Annual Portfolio

Our Philosophy

Inspired by art, motivated by technology

Our Mission

Creating inspiring, memorable, expressive, vibrant, ingenious images and sounds

Back story

1993, a group of talented artists and computer enthusiasts had the dream of bridging the gap between arts and the digital medium in the Middle East, the name that reflected their philosophy was ArtWare; one of the first and leading digital arts studios in the region.

ArtWare Corp has been awarded the golden star at the 19th International Quality Crown Convention - part of the annual program of B.I.D., Business Initiative Directions Awards - for Excellence and Business Prestige held in Paris.

Who we are

ArtWare Corp is a creative digital arts production house, with over 25 years of experience and 3 distinct departments;

ArtWare Architecture: Carried on by a team of experienced and talented architects and designers to provide professional & creative interior design, architecture design, urban design, high-end 3D architectural rendering, CG walkthrough animation & 3D services using latest CAD technologies with a unique contemporary style.

ArtWare Media: A creative production and post production house specialized in advanced film production with a diverse and capable team providing businesses of all sizes with memorable TV commercials, 2d & 3d animations, motion graphics, documentaries, Feature films, music and much more.

ArtWare Audio: innovative digital music recording studio, with State-of-the-art technologies, qualified and talented musicians.

What we do

At ArtWare Corp **Media** department, we provide a valuable partnership to our clients, certainly not the simple [your-storyboard-to-film] approach, but instead; we try to deeply understand your concept and needs, and then; we try harder to infuse more creative input, more emotions and edge to your ideas with great attention to details, relentless pursuit of perfection and passion for beauty;

- Live film production
- High end post production
- 2D, 3D animation
- Commercials
- TV channels IDs
- Music videos
- Corporate documentaries
- VFX for feature films and TV drama
- High speed photography
- Under water / fly cam
- Milo motion control
- 3D architectural visualization
